

California, here we come...

Loic Le Meur is moving to San Francisco. Why he is doing that he explains [in his newest Podcast](#):

Actually, over the last year I decided that I will move to California, too. Maybe not tomorrow, but most probably in 3-7 years. My reasons are:

#1: THE WEATHER!!! I cannot stand it being depressed for 6 months.

#2: THE ADVENTURE!!! You have to risk things in life.

#3: THE BUSINESS!!! Silicon Valley, what more can I say...

#4: THE LIFESTYLE!!! I love the American way of life.

#5: THE PEOPLE!!! Best people in the world

Go for it, Loic!
